

Safety Data Sheet acc. to OSHA HCS

Article Number 122

Revision Number 2

Revision Date 01/23/2015

Section 1. Identification

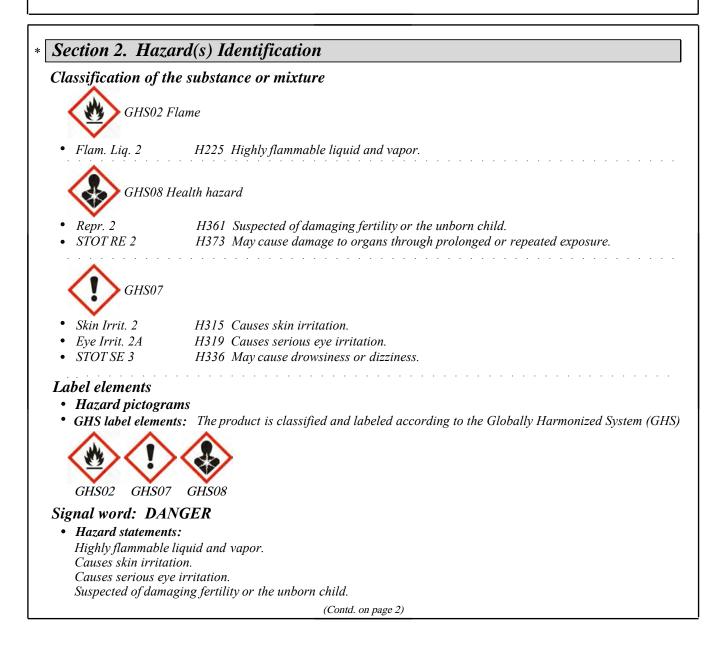

Product identifier: Single -Ply Membrane Bonding Adhesive

- Trade name: Royal Edge Universal Sovlent Based Bonding Adhesive
- Product Code: BASU5G
- **Relevant identified uses of the substance or mixture:** Contact adhesive used for adhereing single-ply membranes to approved insulations, substrates and other surfaces in low slope roofing applications. Not to be used indoors or in unventilated confined areas.

Details of the supplier of the safety data sheet Manufacturer/Supplier

Roofing Products International, Inc. 57460 Dewitt St. Elkhart, IN 46517-1078

Emergency telephone number: ChemTrec: UNITED STATES1(800)424-9300

Page 1/10

acc. to OSHA HCS

Article Number 122

Revision Number 2

Revision Date 01/23/2015

Page 2/10

Trade name: Royal Edge Universal Solvent Based Bonding Adhesive (Contd. of page 1) May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. Precautionary statements If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Keep away from heat/sparks/open flames. Do not smoke. Do not use in areas without proper ventilation. Use explosion-proof electrical/ventilating/lighting/equipment.

IF ON SKIN (or hair): Remove/Takeoff immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Store in secured area.

Dispose of contents/container in accordance with local/regional/national/internationa regulations.

Classification system

• NFPA ratings (scale 0 - 4)

Health = 2Fire = 3 Reactivity = 0

• HMIS-ratings (scale 0 - 4)

HEALTH ² Health = *2 FIRE 3 Fire = 3 PHYSICAL HAZARD 0 Physical Hazard = 0

Other hazards

- Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- vPvB: Not applicable.

* Section 3. Composition/Information on Ingredients

- Chemical characterization: Mixtures
- Description:

Mixture of the substances listed below with nonhazardous additions.

Dangerous components

CAS	Components	
64741-84-0	Naphtha (petroleum), solvent-refined light (textile spirits)	25-50%
108-88-3	toluene	25-50%
67-64-1	acetone	5-20%

* Section 4. First-Aid Measures

Description of first aid measures

- After inhalation: Remove victim to area of fresh air and maintain comfortable breathing position. Supply fresh air or oxygen. If necessary, provide artificial respiration by trained personnel. Contact physician. In case of unconsciousness, place patient in a stable side position for transportation.
- After skin contact: Remove with rubbing alcohol and immediately wash with water and soap and rinse thoroughly.
- *After eye contact:* Check for and remove contact lenses. Rinse opened eye for 20 minutes under clean, running water. Call a physician immediately.
- *After swallowing: Seek immediate medical treatment. Remove dentures. Do not induce vomiting. Maintain an open airway.*

Page 3/10 Revision Date 01/23/2015

(Contd. of page 2) Information for doctor Most important symptoms and effects, both acute and delayed Symptoms and Potential Acute Effects Eve Contact: Causes serious eye irritation. Inhalation: Irritation to lungs and mucous membranes. Skin Contact: Causes skin irritation. Ingestion: Irritating to mouth, throat, and lungs. **Over-exposure** Symptoms Eve Contact: Pain, irritation, watering, and redness. Inhalation: Dizziness, nausea or vomiting. Sensitive individuals may experience nose or throat irritation with prolonged exposure to fumes or vapors. Skin Contact: Irritation and redness. Ingestion: Dizziness, nausea or vomiting. Indication of any immediate medical attention and special treatment needed Contact poison treatment specialist if large quantities are inhaled or ingested. Specific Treatment: No Specific treatment.

Section 5. Fire-Fighting Measures

Extinguishing media

- Suitable extinguishing agents: CO2, sand, extinguishing powder, or foam. Do not use water.
- For safety reasons unsuitable extinguishing agents: Water.

Advice for firefighters

- *Hazardous Thermal Decomposition Products: Toxic gases or vapors such as Carbon Dioxide, Carbon Monoxide, Oxides of Nitrogen, Sulfur Dioxide, and partially burned Carbon.*
- **Protective equipment:** Firefighters should wear appropriate protective equipment and self-contained breathing apparatus.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- *Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste in accordance with federal state and local regulations.*
- Small Spills: Absorb using inert material. Use non-sparking tools. Transfer the material into secure containers for proper disposal. Wear the appropriate protective clothing and equipment. Ensure adequate ventilation.
- Large Spills: Same as small spills.

Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

Section 7. Handling and Storage

Handling

- **Precautions for safe handling** Ensure proper air ventilation/exhaust at the workplace. Open and handle receptacle with care. Under normal handling conditions, protective gloves, glasses, and clothing are adequate.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges by grounding objects prone to static electricity. Keep work area free from open flames, sparks, and hot metal surfaces. Use non sparking tools and explosion proof electrical equipment. Do not open containers in confined areas that restrict adequate ventilation.

Conditions for safe storage, including any incompatibilities

Storage

Г

- **Requirements to be met by storerooms and receptacles:** Store in a cool dry location away from direct heat. Store in unopened original containers.
- Information about storage incompatabilities in one common storage facility: Store as flammable liquid. Store away from oxidizing agents.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevent information available.

• Additional information:

The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment (see listings below)

• General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Store protective clothing separately

• Breathing equipment:

Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

Protection of hands

Protective gloves

The glove material must be impermeable and resistant to the product/ the substance/ the preparation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and therefore has to be checked prior to the application.

• **Penetration time of glove material** The glove manufacturer must determine and adhere to the exact break through time of the protective gloves.

Eye protection

Safety glasses with side shields.

Body protection

Protective work clothing should be worn. Where static electricity is a concern, anti-static boots and gloves may be worn.

• Breathing equipment:

Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

Section 9. Physical and Chemical Properties					
Information on basic physical and chemical properties					
General Information	* -				
 Appearănce Form: 	Liquid				
 Color: 	Yellow				
• Odor:	Strong aromatic odor				
Change in condition					
• Melting point:	Undetermined.				
• Boiling point:	98 °C (208 °F)				
• Flash point:	-18 °C (-0 °F)				
• Ignition temperature:	240.0 °C (464 °F)				
Auto igniting:	Product is not selfigniting.				
• Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.				
Flammable limits					
• Lower:	1.2 Vol %				
• Upper:	13.0 Vol %				
• <i>Vapor pressure at 20</i> ° <i>C</i> (68 ° <i>F</i>):	233.0 hPa (175 mm Hg)				
• Specific gravity:	0.825				
• Solubility in / Miscibility with Water:	Not miscible or difficult to mix.				
Solvent content					
• Organic solvents:	78.0 %				
• Solids content:	22.0 %				
Other information	VOC = 5.17 LBS/GAL WEIGHTPER GALLON= 6.98 LBS NOTICE THIS PRODUCT DOES NOT COMPLYWITH THE REQUIREMENT OF RULE 1168 OF CALIFORNIA'S SOUTH COAST AIR QUALITYMANAGEMENT DISTRICT - 637 G/L SCAQMD RULE 1168 METHOD				

* 5	* Section 10. Stability and Reactivity				
R	Reactivity				
С	Chemical stability				
	• <i>Thermal decomposition / conditions to be avoided:</i> No decomposition if used according to specifications.				
	• Possibility of hazardous reactions: Strong oxidizers, acids and bases.				
	• Conditions to avoid: No further relevant information available.				
	• <i>Incompatible materials:</i> No further relevant information available.				
	• Hazardous decomposition products: Oxides of carbon, nitrogen and hydrocarbons, hydrogen chloride (thermal degradation products).

Section 15. Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture Sara

• Section 355 (extremely hazardous substances):

None of the ingredients is listed.

• Section 313 (Specific toxic chemical listings):

108-88-3 toluene

• TSCA (Toxic Substances Control Act):

All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements.

Proposition 65

Chemicals known to cause cancer

None of the ingredients is listed.

Chemicals known to cause reproductive toxicity

108-88-3 toluene

(DSL) Canada Dosmestic Substance List

All components of this product are on the DSL(Canada Domestic Substance list) or are exempt from DSL requirements. Cancerogenity categories

EPA (Environmental Protection Agency)

108-88-3 toluene

67-64-1 acetone

TLV (Threshold Limit Value established by ACGIH)

108-88-3 toluene

67-64-1 acetone

MAK (German Maximum Workplace Concentration)

None of the ingredients is listed.

NIOSH-Ca (National Institute for Occupational Safety and Health)

None of the ingredients is listed.

National regulations

• Water hazard class: Water hazard class 2 (Self-assessment): hazardous for water.

• Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

* Section 16. Other Information

Although the information and recommendations set forth in this SDS are presented in good faith and are believed to be correct as of the date of this SDS, Roofing Products International, Inc. makes no representations as to the completeness or accuracy thereof. Information is supplied on the condition that the persons receiving and using it will make their own determination as to the suitability for their purpose prior to use. In no event will Roofing Products International, Inc. or any affiliate thereof be responsible for damages of any nature whatsoever resulting from the use or reliance on the information set forth in the SDS.
